SAS Education Practice

Curriculum Pathways

This *resource* is your online *partner* for teaching the core curriculum:

- English, social studies, science, mathematics, Spanish
- Learner-centered tools, lessons, and resources with measurable outcomes
- Interactive components that foster higher-order thinking skills
- Twenty-first century skills integrated into content

Virtual Schools and Curriculum Pathways

Teachers and Course Designers

- Identify materials quickly, plan lessons efficiently, and spend more time interacting with students
- Access resources mapped to state standards
- Offer a wide range of course materials that respond to individual student needs
- Engage students with visual and auditory elements that enhance understanding

Virtual Schools and Curriculum Pathways

Students

- Use virtual labs to explore concepts that are too dangerous, difficult, or expensive for conventional approaches
- Manipulate geometric figures, practice problems, receive feedback, and view solutions
- Analyze primary-source documents in the appropriate historical context
- Read, hear, and analyze excerpts from literary works

Students can access Curriculum Pathways 24 hours a day, anywhere they have an internet connection. They work independently and at their own pace—and submit work for online feedback and assessment.

English

- Language
- Communication Skills
- Literary Genres
